

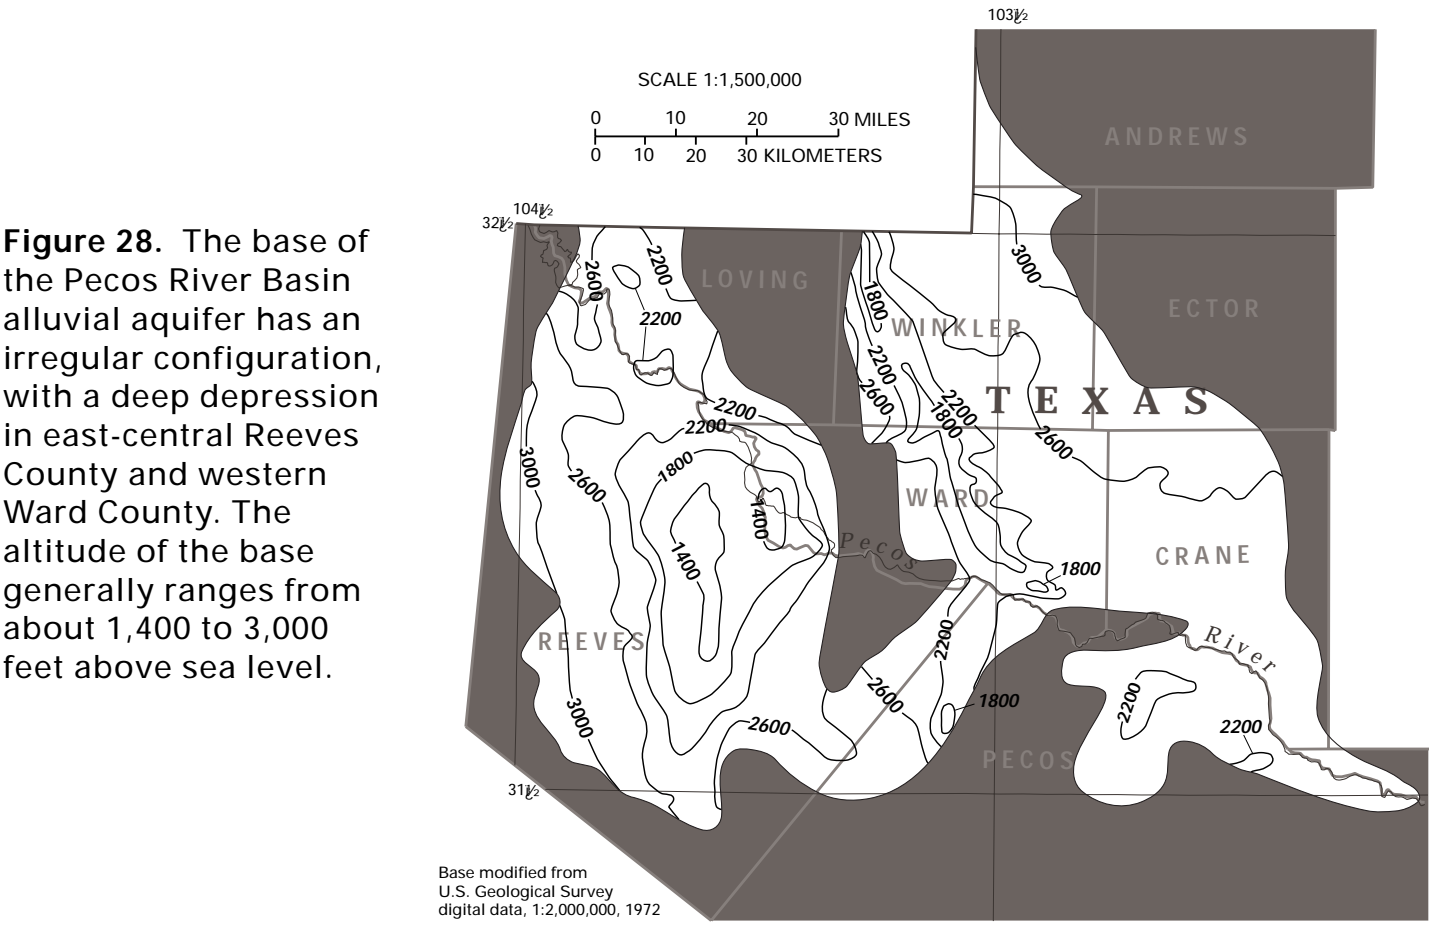

Figure 28. The base of the Pecos River Basin alluvial aquifer has an irregular configuration, with a deep depression in east-central Reeves County and western Ward County. The altitude of the base generally ranges from about 1,400 to 3,000 feet above sea level.

EXPLANATION

—1800— **Base-of-aquifer contour** Shows altitude of base of aquifer. Contour interval 400 feet. Datum is sea level
